Done Ralley to save Rivers on September 1st 2017

India's rivers are undergoing a drastic change. Due to the pressures of population and development, our perennial rivers are becoming seasonal. Many of the smaller rivers have already vanished. Flood as well as drought are becoming increasingly frequent, as rivers turn unruly during the monsoon, and vanish once the rainy season is over.

Our Rivers Are Dying: Ganga, Krishna, Narmada, Kaveri – many of our great rivers are depleting fast. If we do not act now, the legacy we hand over to the next generation will be one of conflict and deprivation. These rivers nurtured and nourished us for thousands of years. It is time we nurture and nourish them back to health.

DONE RALLEY TO SAVE RIVERS BY DNAMIC POLYTECHNIC STUDENTS OF POTTI SREE RAMULU CHALAVADI MALLIKARJUNA RAO COLLEGE OF ENGG AND TECHNOLOGY

POLYTECH FEST
